Notes to Condensed Interim Financial Statements

(Expressed in Canadian Dollars)
(Unaudited)

1. Nature of Operations and Going Concern:

Manitou Gold Inc. (the "Company") was incorporated under the Business Corporations Act (Ontario) and is engaged in the business of locating and exploring mineral properties. Substantially all of the efforts of the Company are devoted to these business activities. To date, the Company has not earned significant revenues and is considered to be in the exploration stage. The Company's registered office is located at 101-957 Cambrian Heights Drive, Sudbury, Ontario.

These unaudited condensed interim financial statements have been prepared using accounting policies applicable to a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they become due.

The Company is at an exploration stage and as is common with many exploration companies, it raises financing for its exploration and acquisition activities. The Company has incurred losses in previous periods, with a current net loss of \$1,138,655 for the six months ended June 30, 2013 and has an accumulated deficit of \$3,619,676 as at June 30, 2013 (December 31, 2012 - \$2,340,821). In addition, the Company had working capital of \$1,762,868 at June 30, 2013 (December 31, 2012 - \$2,539,175).

However, the existing funds may not be sufficient to explore potential exploration project acquisitions and in due course, further funding will be required. In the event that the Company is unable to secure further financing it may not be able to complete the development of its projects.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of operations of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, unregistered claims, aboriginal claims, and non-compliance with regulatory and environmental requirements. The Company's assets may also be subject to increases in taxes and royalties, renegotiation of contracts, political uncertainty and currency exchange fluctuations and restrictions.

Due to continuing operating losses and limited working capital, the Company's ability to continue as a going concern is dependent on its ability to obtain additional sources of financing to successfully explore, evaluate and develop mineral projects and ultimately, to achieve profitable operations. The success of these endeavors cannot be predicted at this time. These conditions indicate the existence of a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern. The unaudited condensed interim financial statements do not reflect adjustments to the carrying values and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern, and such adjustments may be material.

2. Significant Accounting Policies:

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the IASB. These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting.

Accordingly, they do not include all of the information required for full annual financial statements. The policies applied in these unaudited condensed interim financial statements are based on IFRS issued and outstanding as of August 19, 2013, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended December 31, 2012. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending December 31, 2013 could result in restatement of these unaudited condensed interim financial statements. These adjustments could be material.

Change in accounting policies

(i) IFRS 10 – Consolidated financial statements ("IFRS 10") was issued by the IASB in May 2011. IFRS 10 is a new standard which identifies the concept of control as the determining factor in assessing whether an entity should be included in the consolidated financial statements of the parent company. Control is comprised of three elements: power over an investee; exposure to variable returns from an investee; and the ability to use power to affect the reporting entity's returns. At January 1, 2013, the Company adopted this pronouncement and there was no material impact on the Company's unaudited condensed interim financial statements.

(ii) IFRS 11 - Joint Arrangements ("IFRS 11") was issued by the IASB in May 2011 and will replace IAS 31 - Interest in Joint Ventures and SIC 13 - Jointly Controlled Entities - Non-Monetary Contributions by Venturers. IFRS 11 is a new standard which focuses on classifying joint arrangements by their rights and obligations rather than their legal form. Entities are classified into two groups: joint operations and joint ventures. A joint operation exists when the parties have rights to the assets and obligations for the liabilities of a joint arrangement. A joint venture exists when the parties have rights to the net assets of a joint arrangement. Assets, liabilities, revenues and expenses in a joint operation are accounted for in accordance with the arrangement. At January 1, 2013, the Company adopted this pronouncement and there was no material impact on the Company's unaudited condensed interim financial statements.

2. Significant Accounting Policies (Cont'd):

Change in accounting policies (Cont'd)

(iii) IFRS 12 – Disclosure of interests in other entities (“IFRS 12”) was issued by the IASB in May 2011. IFRS 12 is a new standard which provides disclosure requirements for entities reporting interests in other entities, including joint arrangements, special purpose vehicles, and off balance sheet vehicles. At January 1, 2013, the Company adopted this pronouncement and there was no material impact on the Company’s unaudited condensed interim financial statements.

(iv) IFRS 13 – Fair Value Measurement is effective for the Company beginning on January 1, 2013, provides the guidance on the measurement of fair value and related disclosures through a fair value hierarchy. At January 1, 2013, the Company adopted this pronouncement and there was no material impact on the Company’s unaudited condensed interim financial statements given the existing asset and liability mix of the Company to which fair value accounting applies.

(v) IAS 1 - Presentation of Financial Statements (“IAS 1”) was amended by the IASB in June 2011. As a result of the amendment, items in other comprehensive income will be required to be presented in two categories: items that will be reclassified into profit or loss and those that will not be reclassified. The flexibility to present a statement of comprehensive income as one statement or two separate statements of profit and loss and other comprehensive income remains unchanged. At January 1, 2013, the Company adopted this pronouncement and there was no material impact on the Company’s unaudited condensed interim financial statements.

(vi) IAS 27 - Separate Financial Statements (“IAS 27”) was effective for annual periods beginning on or after January 1, 2013, as a result of the issue of the new consolidation suite of standards, IAS 27 has been reissued, as the consolidation guidance will now be included in IFRS 10. IAS 27 will now only prescribe the accounting and disclosure requirements for investments in subsidiaries, joint ventures and associates when an entity prepares separate financial statements. At January 1, 2013, the Company adopted this pronouncement and there was no material impact on the Company’s unaudited condensed interim financial statements.

(vii) IAS 28 - Investments in Associates and Joint Ventures (“IAS 28”) was issued by the IASB in May 2011 and supersedes IAS 28 - Investments in Associates and prescribes the accounting for investments in associates and sets out the requirements for the application of the equity method when accounting for investments in associates and joint ventures. IAS 28 defines significant influence as the power to participate in the financial and operating policy decisions of the investee but is not control or joint control of those policies. IAS 28 also provides guidance on how the equity method of accounting is to be applied and also prescribes how investments in associates and joint ventures should be tested for impairment. At January 1, 2013, the Company adopted this pronouncement and there was no material impact on the Company’s unaudited condensed interim financial statements.

2. Significant Accounting Policies (Cont'd):

Recent accounting pronouncements

(i) IFRS 9 - Financial Instruments ("IFRS 9") was issued by the IASB in November 2009 with additions in October 2010 and will replace IAS 39 - Financial Instruments: Recognition and Measurement ("IAS 39"). IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9, except that an entity choosing to measure a financial liability at fair value will present the portion of any change in its fair value due to changes in the entity's own credit risk in other comprehensive income, rather than within profit or loss. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for annual periods beginning on or after January 1, 2015. Earlier adoption is permitted. The Company is currently assessing the impact of this pronouncement.

(ii) IAS 32 - Financial Instruments: Presentation ("IAS 32") was amended by the IASB in December 2011 to clarify certain aspects of the requirements on offsetting. The amendments focus on the criterion that an entity currently has a legally enforceable right to set off the recognized amounts and the criterion that an entity intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. The amendments to IAS 32 are effective for annual periods beginning on or after January 1, 2014. Earlier adoption is permitted. The Company is currently assessing the impact of this pronouncement.

3. Accounting Estimates:

Significant assumptions about the future that management has made that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

- the amounts shown for mining claims and related deferred costs represent costs incurred to date, less amounts expensed and reimbursements, and do not necessarily reflect present or future values of the particular properties;
- management determination project viability, all unrecoverable costs associated with projects deemed not viable net of any related impairment provisions are written off;
- the estimated useful lives and residual value of equipment which are included in the unaudited condensed interim financial statements and the related depreciation included in profit or loss;
- the inputs used in accounting for share based payment transactions and in valuation of warrants included in shareholders' equity;
- management determination of the ability to raise additional capital and/or obtain financing to advance mineral projects;
- due to the complexity and nature of the Company's operations, various legal and tax matters are outstanding from time to time. By their nature, contingencies will only be resolved when one or more future events occur or fail to occur. The assessment of contingencies inherently involves the exercise of significant judgment and estimates of the outcome of future events. In the opinion of management, these matters did not have a material effect on the Company's financial position or results of operations as at June 30, 2013;
- the interpretation of existing tax laws or regulations in Canada which the Company's operations are located requires the use of judgment. Differing interpretation of these laws or regulations could result in an increase in the Company's taxes, or other governmental charges, duties or impositions. In addition, the recoverability of deferred income tax assets, including expected periods of reversal of temporary differences and expectations of future taxable income, are assessed by management at the end of each reporting period;
- the inputs used in accounting for flow-through premium income; and
- management assumption of no material restoration, rehabilitation and environmental, based on the facts and circumstances that existed during the period.

8. Warrants (Cont'd):

In February 2013, the Directors of the Company approved the extension to the term of certain warrants.

- 5,900,000 warrants were issued by the Company as part of a private placement financing that closed on March 29, 2011. Each warrant was originally exercisable to purchase one common share of the Company at a price of \$0.70 per share until March 29, 2013. The extension of the date of expiry of the warrants to March 29, 2014 was approved by the Directors and the TSX Venture Exchange.
- 227,039 warrants were issued by the Company as part of a private placement financing that closed on April 18, 2011. Each warrant was originally exercisable to purchase one common share of the Company at a price of \$0.70 per share until April 18, 2013. The extension of the date of expiry of the warrants to April 18, 2014 was approved by the Directors and the TSX Venture Exchange.

The Company has recorded the total incremental difference of \$140,200 as a capital transaction based on the fair value of these warrants immediately prior to and after the modification.

The 5,900,000 warrants were valued prior to the extension using the Black-Scholes option pricing model parameters as listed below:

Risk-free interest rate	1.00%
Dividend yield	0.00%
Volatility	137%
Expected life	0.07 years

The 5,900,000 warrants, based on the new terms of the warrants, were valued using the Black-Scholes option pricing model parameters as listed below:

Risk-free interest rate	1.00%
Dividend yield	0.00%
Volatility	141%
Expected life	1.07 years

The 227,039 warrants were valued prior to the extension using the Black-Scholes option pricing model parameters as listed below:

8. Warrants (Cont'd):

The 227,039 warrants, based on the new terms of the warrants, were valued using the Black-Scholes option pricing model parameters as listed below:

Risk-free interest rate	1.00%
Dividend yield	0.00%
Volatility	138%
Expected life	1.13 years

Option pricing models require the use of highly subjective estimates and assumptions including the expected stock price volatility. Changes in the underlying assumptions can materially affect the fair value estimates.

9. Stock Options:

The following table reflects the continuity of stock options for the six months ended June 30, 2013 and June 30, 2012:
