Notes to Condensed Interim Financial Statements
September 30, 2014
(Expressed in Canadian Dollars)
(Unaudited)

1. Nature of Operations and Going Concern:

Manitou Gold Inc. (the "Company") was incorporated under the Business Corporations Act (Ontario) and is engaged in the business of locating and exploring mineral properties. Substantially all of the efforts of the Company are devoted to these business activities. To date, the Company has not earned significant revenues and is considered to be in the exploration stage. The Company's registered office is located at 101-957 Cambrian Heights Drive, Sudbury, Ontario.

These unaudited condensed interim financial statements have been prepared using accounting policies applicable to a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they become due.

The Company is at an exploration stage and as is common with many exploration companies, it raises financing for its exploration and acquisition activities. The Company has incurred losses in previous periods, with a current net loss of \$1,251,635 for the nine months ended September 30, 2014 (nine months ended September 30, 2013 - \$1,191,105) and has an accumulated deficit of \$5,007,248 as at September 30, 2014 (December 31, 2013 - \$3,755,613). In addition, the Company had working capital of \$936,755 at September 30, 2014 (December 31, 2013 - \$1,467,673).

However, the existing funds may not be sufficient to explore potential exploration project acquisitions and in due course, further funding will be required. In the event that the Company is unable to secure further financing it may not be able to complete the development of its projects.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of operations of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, unregistered claims, aboriginal claims, and non-compliance with regulatory and environmental requirements. The Company's assets may also be subject to increases in taxes and royalties, renegotiation of contracts and political uncertainty.

Due to continuing operating losses and limited working capital, the Company's ability to continue as a going concern is dependent on its ability to obtain additional sources of financing to successfully explore, evaluate and develop mineral projects and ultimately, to achieve profitable operations. The success of these endeavors cannot be predicted at this time. These conditions indicate the existence of a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern. The unaudited condensed interim financial statements do not reflect adjustments to the carrying values and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern, and such adjustments may be material.

2. Significant Accounting Policies:

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the IFRS Interpretation Committee ("IFRIC"). These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements.

The policies applied in these unaudited condensed interim financial statements are based on IFRS issued and outstanding as of November 18, 2014, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended December 31, 2013, except as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending December 31, 2014 could result in restatement of these unaudited condensed interim financial statements.

Change in accounting policies

IAS 32 - Financial Instruments: Presentation ("IAS 32") was amended by the IASB in December 2011 to clarify certain aspects of the requirements on offsetting. The amendments focus on the criterion that an entity currently has a legally enforceable right to set off the recognized amounts and the criterion that an entity intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. At January 1, 2014, the Company adopted this pronouncement and there was no material impact on the Company's unaudited condensed interim financial statements.

Recent accounting pronouncements

IFRS 9 - Financial Instruments ("IFRS 9") was issued by the IASB in October 2010 and will replace IAS 39 - Financial Instruments: Recognition and Measurement ("IAS 39"). IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39.

The effective date of IFRS 9 was deferred to years beginning on or after January 1, 2018. Earlier application is permitted.
