# 1. Nature of Operations and Going Concern

Manitou Gold Inc. (the "Company") was incorporated under the Business Corporations Act (Ontario) and is engaged in the business of locating and exploring mineral properties. Substantially all of the efforts of the Company are devoted to these business activities. To date, the Company has not earned significant revenues and is considered to be in the exploration stage. The Company's registered office is located at The Canadian Venture Building, 82 Richmond St East, Toronto, Ontario, M5C 1P1.

These unaudited condensed consolidated interim financial statements have been prepared using accounting policies applicable to a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they become due.

The Company is at an exploration stage and as is common with many exploration companies, it raises financing for its exploration and acquisition activities. The Company has incurred losses in previous periods, with a current net loss of \$87,364 for the three months ended March 31, 2017 (three months ended March 31, 2016 - loss of \$81,048) and has an accumulated deficit of \$14,035,025 as at March 31, 2017 (December 31, 2016 - \$13,947,661). The Company had working capital of \$231,620 at March 31, 2017 (December 31, 2016 - \$318,984).

However, the existing funds may not be sufficient to explore potential exploration project acquisitions and in due course, further funding will be required. In the event that the Company is unable to secure further financing it may not be able to complete the development of its projects.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of operations of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, unregistered claims, aboriginal claims, and non-compliance with regulatory and environmental requirements. The Company's assets may also be subject to increases in taxes and royalties, renegotiation of contracts and political uncertainty.

Due to continuing operating losses and limited working capital, the Company's ability to continue as a going concern is dependent on its ability to obtain additional sources of financing to successfully explore, evaluate and develop mineral projects and ultimately, to achieve profitable operations. The success of these endeavours cannot be predicted at this time. These conditions indicate the existence of uncertainty that may cast doubt on the Company's ability to continue as a going concern; however, management believes it has sufficient working capital to support planned operations for the ensuing twelve months. The unaudited condensed consolidated interim financial statements do not reflect adjustments to the carrying values and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern, and such adjustments may be material.

# 2. Significant Accounting Policies

### **Statement of Compliance**

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the IFRS Interpretations Committee. These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements.

The policies applied in these unaudited condensed consolidated interim financial statements are based on IFRS issued and outstanding as of May 26, 2017, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed consolidated interim financial statements as compared with the most recent annual consolidated financial statements as at and for the year ended December 31, 2016. Any subsequent changes to IFRS that are given effect in the Company's annual consolidated financial statements for the year ending December 31, 2017 could result in restatement of these unaudited condensed consolidated interim financial statements. These adjustments could be material.

# **Recent Accounting Pronouncements**

IFRS 9 – Financial Instruments ("IFRS 9") was issued by the IASB in July 2014 and will replace IAS 39 - Financial Instruments: Recognition and Measurement ("IAS 39"). IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value and a new mixed measurement model for debt instruments having only two categories: amortized cost and fair value. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Final amendments released in July 2014 also introduce a new expected loss impairment model and limited changes to the classification and measurement requirements for financial assets. IFRS 9 is effective for annual periods beginning on or after January 1, 2018. Earlier adoption is permitted. The Company is currently assessing the impact of this pronouncement.
